

ReseteArte

Lienzo Menu

Chef María José Martínez has created with **ReseteArte** the first complete menu conceptually inspired by artistic works, belonging to artistic movements, from the Renaissance to current contemporary art, which will be accompanied by a harmony of wines from different latitudes of the planet.

A proposal of high sensitivity that has been in the making for over a year, and that is not only the expression of universal art in plates of great beauty, all of them have been crafted with sustainability as a guiding principle for the creation of each recipe, selecting local producers and artisans from the Valencian Community territory for their respect for the environment and their work with animal welfare, not forgetting the chef's special connection with the world of bees, essential for the preservation of our planet and for human nutrition.

The artistic periods reflected in this menu are:

Renaissance 1400-1600
Baroque 1600-1750
